

# Responsibility Needed on Campus, Fredericks Says

Realtor Fred Fredericks, Republican candidate in the 67th Assembly District, has called for academic responsibility coupled with academic freedom on the campuses of California's colleges and universities.

**FRED FREDERICKS Takes Stand**

Fredericks, speaking at the opening of his headquarters in Gardena, said he is "appalled at student violence and the permissive attitude of our school administrators."

"If civil disobedience was not condoned, it would not exist," the Republican candidate said. "I believe academic freedom must be coupled with academic responsibility."

FREDERICKS also issued the following statement outlining his position on issues facing the district, state, and nation.

"I support tuition for those who can afford it, and a loan program for those who cannot. The alternative to this is higher and higher taxes. I strongly oppose allowing felons and revolutionaries such as Eldridge Cleaver and Rap Brown to speak on our campuses, shout obscenities, and distort the fertile minds of our young adults. I believe that the term of office for the Regents of our University system should be reduced from 16 years to 8 years.

"I support the right of law-abiding citizens to own and bear arms. If I had been an Assemblyman last June, I would have strongly opposed the Shoemaker Bill which almost gave the State of California the most stringent gun control law in the nation. My opponent's record shows that he voted for gun control five times, and has never voted against it, contrary to his public claims. I support, however, strong penalties for armed violators of the law.

"I SUPPORT a new concept in welfare. Our present program is ill-conceived, over-financed and ineffective.

## Hospital Adopts Food Consultation Program

The board of directors at South Bay Hospital has approved installation of a new Therapeutic Diet Consultant Program, in a continuing effort to bring additional outside services to area residents.

Heading up the new service is Mrs. Velma Alcorn, who will work with the hospital food service staff to provide instruction on prescribed diets for office patients of members of the medical staff at the hospital. Mrs. Alcorn is a qualified dietician, having trained at West Virginia State College. She attended UCLA on a one-year fellowship grant as a graduate student and research assistant in nutrition.

Services under the new program include consultation with the Diet Consultant to discuss with the patient his food history, his home feeding situation, and diet problems. His written "take-home" diet will be prescribed by the attending physician much like any pharmaceutical prescription.

South Bay Hospital is the first hospital in this area to initiate such a program, according to Arthur Miller, administrator.

## South High Students Commended

Letters of Commendation honoring them for their performance on the 1968 National Merit Scholarship Qualifying Test have been awarded to seven students at South High School, Dr. John A. Lucas principal announced.

Those commended are Patricia J. Harris, Steven C. Hedlum, Jeannette N. Money, John S. Peterson, Robert S. Saunders, Stanley R. Schiff, and Cecilia A. Weislo.

They are among 39,000 students in the United States who scored in the upper 2 per cent of those who will graduate from high school in 1969. The commended students rank just below the 15,000 Semifinalists announced earlier by the National Merit Scholarship Corp.

## Chambers to Meet

Members of the Harbor District Chambers of Commerce will hold their first session of the fall tomorrow. The meeting is scheduled at the Southside Chamber of Commerce, 1455 W. Manchester Ave., at 7:30 p.m.

# Proposition 9 Would Halt Sales Of Bonds, Taxpayers Group Says

Capitol News Service  
SACRAMENTO — The California Taxpayers Association (CTA) has charged that if Proposition 9, the so-called Watson amendment to the state constitution, should pass, more than \$5 billion in bonds already authorized by the voters cannot be sold.

The association also claimed that if bonds approved by the voters between Sept. 3 and Nov. 5, also could not be sold. The voters are scheduled to decide on \$3.2 billion in bonds during elections set by school districts, water districts, sewer districts and cities during that period.

The CTA also claimed that the taxpayers will pay extra whether Proposition 9 passes or not because some dis-

tricts are flooding the bond market now with previously passed issues, in an attempt to have them sold before the Nov. 5 vote on the amendment.

The Watson initiative, the taxpayers association said, will limit the state's bonding to 20 per cent of assessed value or \$9.6 billion based on the 1968 figures. At the end of 1967 the state owed \$4.4 billion on bonds and local government had a bonded debt of \$9.7 billion. Since then many more bonds have been sold.

The panic selling of bonds, the CTA said, results in higher interest costs and the taxpayers will be paying that cost over a period of many years.

Although bonds already sold exceed the bond limits placed by Proposition 9 by more than 50 per cent, the voters have approved sale of another 50 per cent, \$5,274,138,300 in bonds. The authorizations may go much higher than the \$5.3 billion, since voters will decide on \$3,262,740,700 between now and Nov. 5.
